Support Sara Phillips! Sara has taken a leave of absence from Michigan State University, College of Law this semester due to extensive time spent in the hospital. Sara's medical condition, ulcerative colitis, caused her immune system to weaken and sepsis to form in her bloodstream, resulting in her right leg being amputated. Sara had the stamina to undergo three serious surgeries in the span of two weeks, in spite of her weakened condition. In addition, Sara's colon must soon be removed. Two months later, the fighter, Sara, is staying strong!

Sara's student insurance policy is limited, her medical bills and medication are now being paid out of pocket, and she needs all of your help. Two months ago, her parents have flown from Florida to care for Sara, meanwhile leaving their jobs. Sara's friends and family are asking for your support in this time of need. For further information about Sara's story, please go to [www.caringbridge.org/visit/saraphillips](http://www.caringbridge.org/visit/saraphillips).
